

U-MARQ is committed to provide our customers with systems for quality engraving, regardless of their type of business or personal skill. This combined with machines that are feature rich but easy to use! Manufactured to the highest quality standards at the most affordable price! Using the most innovative and up to date in-house technology! At the best possible prices.

GEM | RX4

The GEM-RX4 engraves on all metals (gold, silver, brass, stainless steel), plastic, wood, glass and soap. It engraves flat items, inside and outside rings or bracelets, and 360 degrees around any small cylindrical item, like pens and mini flashlights. Fast and easy to use, it comes with self-centering vise and jigs for holding a wide variety of merchandise. Burnish coated metals as well as deep engrave into plastics and medals.

GEM-RX4 \$ 6,995 US

GEM | FX4

The GEM-FX4 can engrave or cut-out gifts and jewelry items with ease. It lets you engrave large or small items such as gifts, jewelry, name plates, and more. It's large surface area makes it very versatile. Unlike other engravers, the GEM-FX4 replaced the cable driven "Z" axis with a direct drive stepper, letting you use fixed or floating depth control and provides for a much higher precision when engraving and cutting.

GEM-FX4 \$ 6,995 US

GEM | VX4

The ultimate versatile engraving machine, the GEM-VX4 is designed for customers with high demands of speed and efficiency. It quickly engraves anything from the finest bracelet to a full size door sign or tankard, as well as glass items and trays. The GEM-VX4 can cut out names and shapes in gold, silver and copper sheet material—and seconds later can be engraving lettering only a fraction of a millimeter high on delicate jewelry. The GEM-VX4 now features a new and unique contour enabling scanning and automatic vectorisation of logos.

GEM-VX4 \$ 11,995 US

Choosing the right machine

We're not a mail order house, like most places who sell these machines. We **use** these engravers in our shop and retail ops.

When you buy from us, you get over 23 years of experience to back you up.

GEM | CX4

The U-Marq GEM-CX4 engraving machine takes over where the GEM-RX4 and GEM-FX4 leave off. As well as gifts and personal items, the GEM-CX4 will engrave jewelry, trophies, tankards, glass, tags, labels and much more! For the jeweler, the GEM-CX4 can also be used to cut out names and shapes in gold, silver and copper sheet material. The GEM-CX4 is a true 4 axis engraving machine, giving the user absolute control over the cylindrical axis, no task is too demanding.

GEM-CX4 \$ 13,995 US

UNIVERSAL | 300

The sleek and uncluttered design of the Universal-300, combined with the mechanical stability, makes engraving on large or small cups, or even swords, as simple as a trophy plate. And seconds later be engraving lettering only a fraction of a millimeter high on delicate jewelry. From gifts and personal items to large tankards, large glass bowls, brass plaques, aluminum signage multiple badges, and much more, with its high quality and high speed spindle, which is almost noiseless, it is ideal for the workshop or retail environment.

Universal-300 \$ 16,995 US
