Pens

One of the challenges for a traditional 3-axis machine is how to engrave a pen, or other round objects. The GEM-RX5 offers the perfect answer, by using true 4-axis functionality; it will engrave 360 degrees around a pen or other small cylindrical objects. The GEM 8 software has been configured to make this normally complicated task, **easy** to use to get spectacular results.

Pet Tags

The GEM-RX5 is ideal for engraving Pet Tags quickly and efficiently with template for all U-MARQ Pet Tags, (much higher quality than most) and other makes. Why be restricted to text, with the GEM-RX5 you can engrave any type of graphic images, logos its only limit is your imagination.

Inside / Outside Rings

By fitting the U-MARQ optional Inside/Outside Ring Engraving attachment, your GEM-RX5 is turned into a full feature jewelry engraving center with virtually no limits. At last the perfect machine for the retail jeweler, to offer in house engraving services.

Jigs

The wide range of push-fit jigs quickly clamp many items, including; scrolls, medals, cufflinks, watches, trophy plates, pet and ID tags, rings, bracelets, clocks, pendants, baby gifts, key fobs, lighters, and other items. With unique pressure settings, even fine gold lockets can be engraved without fear of damage.
